

ATTACK ON VILLA AT NAGO LIKELY TO CREATE MORE BORDER TROUBLE

Determination of General Obregon To Carry Campaign To Door of 'Pancho's' Capital Portends Another Crisis

BATTLE THERE MEANS MORE AMERICANS SHOT

General Calles Will Be Relieved Of Command At Agua Prieta For Not Following Up Victory And Crushing 'Bandit Rebel'

(Associated Press by Federal Wireless.)
WASHINGTON, November 6.—The Mexican border crisis is far from being settled, if developments of the last twenty-four hours are significant.

Another situation like that at Douglas is impending at Naco. General Obregon, Carranza's first commander, is en route to Agua Prieta to lead a campaign against General Villa at Naco and it is feared if he attacks Villa at this border town another reign of terror will result, similar to that last winter when many persons were wounded or killed by "stray" bullets from the battle waged between General Hill, the Carranza commander, and Governor Maytorena of Sonora, the Villa commander.

Americans' Fate Doubtful
Meanwhile the fate of the four Americans, who were believed to have been slain by General Villa as an act of revenge for recognition of Carranza by the United States, remains in doubt. It is reported from Douglas that the men were held prisoners by Villa, but that Villa had ordered their release. Like the reports of their death, this lacks confirmation.

If they have not been released, however, their lives may be imperiled by action taken by the Washington government yesterday. In reply to a request from General Villa that he be allowed to transport wounded soldiers from Naco to Juarez, as Carranza was granted permission to transport troops over American soil from Laredo to Agua Prieta, the state department refused assent.

More Reprisals Expected
As the lives of Americans were threatened by Villa following recognition of Carranza and the grant of permission for his troops to use American soil, it is believed this refusal may go even farther towards provoking reprisals.

It is reported that Villa is planning a march against Hermosillo and Guaymas and from there to move on Mexico City, but doubt is expressed if he has sufficient troops for such an expedition.

GENERAL OBREGON IN TEXAS
ALPINE, Texas, November 5.—General Obregon is here, en route to Agua Prieta, where he will succeed General Calles in command of the Carranzistas. He will then move at once to attack Villa at Naco.

GENERAL CALLES IN DISFAVOR
DOUGLAS, November 5.—General Obregon is expected here soon to cross into Agua Prieta and take command of the Carranza force. General Calles' failure to advance from Agua Prieta and meet Villa, and to pursue him after his defeat, has caused dissatisfaction with his policy of command.

MEXICANS FIRE ON SOLDIERS
BROWNSVILLE, November 5.—It is reported that six Mexicans fired on eleven soldiers on patrol duty near here today. There were no casualties, so far as known.

LONDON FAVORS EDISON FOR GREAT NOBEL PRIZE

(Associated Press by Federal Wireless.)
LONDON, November 6.—Copenhagen has suggested the names of Thomas A. Edison, the American inventor, Nikola Tesla, the wireless telephone inventor, and Svendberg, the Scandinavian, as fit recipients for the Nobel prize for scientific research and the suggestions have been adopted.

Edison's fame is world wide. Nikola Tesla is not so well known, but he has risen high in the field of science. He was born in Serbia in 1857, the son of a priest of the Greek Church. He was educated at the Realschule in Prague, the P. J. Technik School at Prague, and in Prague and Budapest. He served in the government telegraph and engineering department in Paris and was employed by large electric utility companies. He came to the United States in 1882 and was employed some time by Thomas A. Edison.

FORMER JURIST KILLS HIMSELF AT HOSPITAL

(Associated Press by Federal Wireless.)
SAN FRANCISCO, November 6.—W. O. Britton, formerly a judge in the Superior Court, is dead by his own hand. Yesterday afternoon he leaped from a ferry boat. He was rescued from a hospital, but when he was taken to a hospital, he was found to be dead. He was found by a doctor who was on duty at the hospital.

SITUATION IN GREECE IS GROWING OMINOUS

Constantine Confronted By Crisis That May Force War

(Associated Press by Federal Wireless.)
LONDON, November 6.—Greece is in the grip of what is regarded as the most critical crisis of the several it has gone through since the war began. According to a Reuter's dispatch from Athens, King Constantine, following refusal of the chamber of deputies to give a vote of confidence to the ministry of Premier Zaimis, instructed Zaimis to continue as prime minister, but Zaimis refused and the king has called a council of the ministry to consider what can be done.

It is stated that the logical alternative of the king would be to reappoint former Premier Venizelos. But as the king is committed to neutrality and Venizelos is the leader of the war party, the king cannot restore him without the possibility of having his hand forced to a declaration of war against Bulgaria.

News is anxiously awaited here on the outcome of the council of the ministry, for it is thought the conference may settle the future attitude of Greece.

The king is reported to have made Minister Yanakakis, head of the war department, his aide-de-camp. Thus the breach between the war minister and Venizelos finds the king supporting the war minister.

JOSE OROZCO ADMITS CONSPIRACY OF HUERTA

Gives Details of Plot To Restore Fugitive President

(Associated Press by Federal Wireless.)
SAN ANTONIO, November 5.—Jose Orozco, one of the Mexicans arrested in connection with General Huerta's alleged conspiracy, confessed today to the plot of which Huerta is accused of being the ringleader. Orozco is a brother of Pablo Orozco, who was arrested in the same charge, but later escaped to Mexico and was killed while making a secret return visit under cover of a bandit raid.

The plot was to restore Huerta to the Mexican presidency, Orozco admitted, and plenty of funds were available. Huerta having obtained backing of \$1,000,000. At the time of Huerta's arrest his agents were working in New Orleans, San Antonio and Galveston. Further details of the confession were withheld by the district attorney.

General Huerta and his alleged accomplices are still in jail awaiting their trial, which will be begun shortly. Orozco's confession, it is expected, will be one of the mainstays of the prosecution.

FIGHTING IS TERRIFIC ON TWO BATTLELINES

Russians Hammer At Germans While Turks Attack British

(Associated Press by Federal Wireless.)
LONDON, November 6.—Bitter fighting continues on the East front and at the Dardanelles, but only minor engagements are reported from the Western Front. The Germans continue to be on the defensive in Russia, while on Gallipoli the British have repulsed several Turkish attacks. The Gallipoli line has been stormed at several points but has stood the shock.

SLAV OFFENSIVE ADMITTED

BERLIN, November 5.—The official bulletins today admit that the Russian forces have taken the offensive south west of Dvinsk, where Field Marshal von Hindenburg's army has been vainly endeavoring to make progress in the Riga campaign, but the official announcements deny that the Slavs have succeeded in their attacks, saying that the charges broke down under German fire and the enemy suffered heavy losses. The Russians made a temporary advance northwest of Gzartovsk, it is said, but such determined resistance that they were forced to retire to their former positions.

RUSSIAN GENERAL DISGRACED

PETROGRAD, November 5.—Disgraced and heavily penalized for the capture of the fortress of Kovno by the Germans, General Gregoroff, the Russian commander, has been found guilty by a court martial. He was charged with being absent from the fortress at a critical time and with inadequate defense of the stronghold. The court martial was held at Dvinsk. Gregoroff has been sentenced to fifteen years of hard labor and to the loss of all his civil and military rights.

TRAIN BANDITS FOILED

(Associated Press by Federal Wireless.)
SAN FRANCISCO, November 5.—What is believed to have been the work of Industrial Workers of the World, recently resulted in the wreck of the Southern Pacific "Owl" train last night near Fresno. Heavy shot train was on across the tracks but the train derailed and the bandits and remained on the rails.

ORDER SENT BY RADIOPHONE

(Associated Press by Federal Wireless.)
WASHINGTON, November 6.—Secretary of the Navy Daniels yesterday transmitted an order over the wireless telephone for the first time. The secretary addressed the commandant of the New York navy yard.

CLOAK OF MYSTERY HAS BEEN DROPPED FROM 'MEDICO' CASE

Army Surgeon 'Plucked' By Examining Board And Three Japanese Are Passed

QUESTION NOW IS: WHICH CAUSED IRE OF GOVERNOR

Mr. Pinkham Silent, Except To Explain He Will Not Attack Incident

Some of the facts in connection with the practical dismissal of the board of medical examiners by Governor Pinkham are commencing to come out. The advertiser having given the necessary publicity to the situation to rip a hole in the cover of mystery with which the Governor had attempted to clothe his actions.

The trouble between the Governor and the board has been developing for some time, the climax coming when Major Reynolds, Medical Corps, appeared for the formal examination before the board, the other applicants with him for licenses to practice being three Japanese doctors.

The three Japanese passed and Major Reynolds was "plucked."

When this news reached the Governor, he called for the resignations of the members of the examining board, but whether his ire was aroused over the fact of the passing of the Japanese or the plucking of the Japanese is one of those things looked in the Governor's bosom and in the realm of the speculative so far as a mere newspaper goes.

The Governor yesterday denied that his remark concerning the important address he intended to make at the Japanese coronation celebration banquet, made at the time he declined to discuss his reasons for dismissing the board of medical examiners, should have been taken in connection with the subject being talked over. The matter of medical practitioners is at least one subject, then, which he will not cover in his address.

Medical Man Talks
The inference that there is any connection between the incident of the dismissal of the board of medical examiners and the meeting of the Medical Society of Hawaii, to begin today, is not warranted, said a prominent member of the society yesterday.

"It is a matter of very great regret to the members of the Medical Society of Hawaii," he said, "that the subject of an article in this morning's paper should have been expressed in the way it was."

"The medical society is about to hold its annual meeting, and any such suggestion that there is going to be a rumormongering on account of the subject matter of the article alluded to, is liable to do considerable harm."

"A moment's reflection will show me one at all conversant with the laws governing the board of medical examiners, that the society has no more to do with the refusal of that board to grant a license, than it has with the alleged failure of the police to stop the same. Such a thing is entirely outside its aims and desires, and so far as the society itself is concerned it is not even cognizant of who passes and who does not pass the board of medical examiners."

Inquiry Is Suggested
"On the other hand, there is no question but that if a candidate has been turned down by the board of examiners, the questions and answers being written up, on file with the board, and open to review by a proper tribunal, the board invites such a review."

"The second matter, that the cause of the refusal was a feeling by the civilian practitioners adverse to the army surgeons competing with them, is just one of those things with a sufficient medium of truth to make it appear reasonable."

"There was an objection raised some time ago by the civilian practitioners against army surgeons competing and using the facilities of the army hospitals without charge, or at such a nominal one that proper ethical competition was impossible."

This matter, however, was taken up in a proper way and has been amicably settled, as regards the use of the army hospital, and if any member of the society has still a "kick coming," there is no question the matter can be amicably settled, as was the former one."

Furthermore, so far as the medical society and its members are concerned, they have no more objection, and equally have no more, to army surgeons practicing in the Territory, than they can have for any physician who obtains a license to practice."

Under these circumstances a great number of the members of the society regret this morning's article, and would have been much better pleased if the name of the medical society had been kept out of the article altogether.

Because the Major Reynolds case yesterday, Dr. F. E. Tattor, secretary of the medical society, said:

"Major Reynolds was competent to receive a license in Hawaii, I feel positive the board would have granted him one."

WHY IT SELLS.
Hamberlin's Cough Remedy is the largest selling cough medicine in the world today, because it does exactly what a cough remedy is supposed to do. It stops the cough by entering the chest, and does it quickly and effectively. For sale by all dealers. Benson, Smith & Co., Ltd., agents for Hawaii.

WAR DEPARTMENT PLAN DISAPPOINTS

Regular Army Below 150,000 And Practically All Increase For Canal Zone

ENLISTMENT IS SIX YEARS

Two of Which Will Be With Colors And Four With Reserves

(Associated Press by Federal Wireless.)
WASHINGTON, November 6.—Ten new regiments of Infantry, four new regiments of Field Artillery and fifty-two new companies of Coast Artillery are the main additions to the regular army under the plans of the administration, the announcement of the Secretary of War yesterday.

The authorized strength of the regular army is to be increased approximately fifty per cent, to 141,843 men, the greater part of the increase to be added to the garrison strength of the Panama Canal Zone, the plans calling for the detailing there, for the protection of the inter-oceanic waterway, of 1453 officers and 42,466 men. The troops now stationed on the Canal Zone are but slightly more than four thousand.

Six Years' Enlistment
The enlistment term for the regular army will be six years, two with the colors and four on furlough, subject to call as first reservists.

Secretary Garrison announced the departmental program as all ready for submission to congress, this being the first official announcement of the details of the administration's prepared new program as it relates to the army. The plan calls for a total regular army personnel of 141,843 and a total for the continental army of 400,000 while suitable legislation to strengthen the militia of the various states and territories through increased appropriations for national guard purposes and through a closer cooperation between the regular army and the guard is recommended.

It is the plan of the department, if congress sanctions it, to spend \$20,000,000 a year on the coast defenses for the next four years and, during the same four year period, to spend an annual \$25,000,000 for a munition and supply reserve stock.

'Citizen' Army 400,000
The regular army increases provide for ten additional regiments of Infantry, four additional regiments of Field Artillery, fifty-two additional companies of Coast Artillery, fifteen additional companies of Engineers and four additional aero squadrons.

The "citizen army," or "continental," are to be recruited up to a total of 400,000, under a six year enlistment term. During the first three years, the continentals will be called to the colors for short periods of intense training, receiving six months close instruction during the three year period. During the three year reserve period the continentals will be subject to call.

This citizen army will be recruited in every State of the Union, the tactical divisions to be built up in the various geographical divisions of the country.

ALL ABOARD STEAMER FORT BRAGG RESCUED

Cruiser San Diego Lands Passengers And Crew Safely

(Associated Press by Federal Wireless.)
SAN DIEGO, November 6.—All aboard the steamer Fort Bragg, which went ashore yesterday morning at the tip of the Southern California coast, have been saved, according to a radiogram from the United States cruiser San Diego, which went to the rescue.

The twenty-four passengers and twenty-three of the crew were all landed by the San Diego, and the cruiser is standing by the stranded ship. The vessel is pounding on the rocks and heavy seas are breaking over her.

The San Diego made a record run to the Fort Bragg, reaching her at eight o'clock last night after maintaining a speed of twenty-one knots all the way.

GERMANY IS FIGHTING TRAFFIC IN MUNITIONS

(Associated Press by Federal Wireless.)
NEW YORK, November 6.—Robert Fay, the man who is said to be a lieutenant in the German navy and who is under arrest on the charge of making bombs to explode ships carrying supplies to the Allies, last night told an officer of the secret service who is investigating the case that Germany has spent \$500,000 in the United States in seeking to prevent shipment of munitions to the Allies.

'DYNAMITE' DEFENSE SCORES

(Associated Press by Federal Wireless.)
LOS ANGELES, November 5.—Attorneys defending Matthew Schmidt, who is charged with criminal complicity in the dynamite explosion which wrecked the Los Angeles Times, today asked that Special Prosecutor Noel be disqualified. It is alleged that he is not a citizen of California and has not been admitted to practice law in this State. The motion has been taken up for adjudication.

THREE HUNDRED MEN LOST

(Associated Press by Federal Wireless.)
HONOLULU, November 6.—Three hundred men were lost when the British battleship Victoria was sunk in the Argon Sea September 19.

COMORAN OFFICER AND THREE SAILORS ARE ABOARD LOGAN

Two of Latter Insane And Third Is Suffering From Tuberculosis

ISOLATION AT GUAM
BLAMED FOR TROUBLES

Report That Interned German Cruiser Will Be Transferred Is Revived

Lieutenant von Elpons of the German converted cruiser Comoran, interned at Guam, is a passenger in the army transport Logan, bound for San Francisco and Norfolk. The lieutenant was one of the officers who figured prominently in the clever escape of the Comoran, a former merchantman of the Russian volunteer fleet, from Japanese and British men-of-war last year.

Besides the lieutenant there are two insane sailors from the Comoran: Stanislaus Lewitzki and Hugo F. Seigemyer, who has tuberculosis. Reports aboard the Logan and coming from Manila are that the solitude to which the Comoran's crew is subjected at Guam is responsible, in part at least, for the insanity. Anchored, as the ship is, far from shore, the men are in unfavorable circumstances for their physical and mental well-being.

Comoran May Be Removed

The report of the Comoran being moved from Guam is revived. Manila now comes in for mention. Last March Honolulu heard that the navy department had been asked to send her to San Francisco or Honolulu, the former preferred, but no action, so far as known, ever was taken on that application, although it has been before the department at least eight months.

Some understanding with the nations at war with Germany probably would have to be reached before the cruiser could be moved, however.

Medical men of the navy, stationed at Guam, have recommended to the navy department that the Comoran be transferred to another station, according to Manila reports, because of the effect of the isolation upon the men. Besides the two insane men in the Logan there was another who already has been sent to the States.

Siegmeyer In Bad Shape

Siegmeyer was in bad shape when taken aboard at Manila, and the cold and fog of San Francisco will be hard on him while he is there, but he will be hurried away as rapidly as possible to the dry air beyond the mountains.

Lieutenant von Elpons was one of the officers in the yawl that the Comoran sent to Guam to send a cable to Ben Meyer of Manila for the steamer Rio Pasig to take coal to the cruiser. At that time the Comoran was in hiding at an unknown island with her coal almost gone. Permission to send the cablegram to Manila was refused von Elpons, and the sea sailing boat was "interned." In a few days the Comoran herself found safety at Guam, with the Japanese at her heels. Prior to this time she had fled through the South Seas, having had particularly narrow escapes at German New Guinea from British men-of-war.

Escapes From Tientsin

She escaped from Tientsin before the Japanese invested that stronghold, and at Tientsin the old Comoran, a sister ship to the Geier, now in Honolulu, had been scuttled and her guns put on the Russian merchantman, captured early in the war.

Lieutenant von Elpons will report to the commandant of the Norfolk navy yard, where are the crews of the interned converted cruisers Prinz Eitel Friedrich and Prinz Friedrich Wilhelm. Von Elpons is a son of a retired army avy officer of the German army who resides in Potsdam.

ALPINE WINTER PUTS END TO ALL FIGHTING

(Associated Press by Federal Wireless.)
GENEVA, November 5.—The terrible cold of winter in the Alps is paralyzing offensive and defensive movements in the Italian-Austrian campaign. Heavy snows and great avalanches are reported from the Carnic Alps and the encounters between the hostile troops have been stopped, each side devoting its energies to building winter quarters in the advanced positions. Much suffering from cold is reported among the troops.

LARGE PROFIT IN SIGHT FOR SAN FRANCISCO FAIR

(Associated Press by Federal Wireless.)
SAN FRANCISCO, November 6.—It was estimated yesterday that the net profits of the Panama-Pacific International Exposition will be \$1,410,873. The total income up to October 31 was \$6,048,129.

LIBERTY BELL GOING BACK

(Associated Press by Federal Wireless.)
PHILADELPHIA, November 5.—A special committee of city councilmen left Philadelphia today to escort the Liberty Bell home from the Panama-Pacific exposition. The Liberty Bell will be removed from the exposition Thursday. The cost of the trip to the city will total \$75,000.

NEVADA WINS IN TEST

(Associated Press by Federal Wireless.)
HONOLULU, November 6.—The new battleship Nevada finished her efficiency test successfully yesterday with heavy sea to fight against.

PRESIDENT SENT ON BRYAN SPEECH

Refuses To Discuss Attack By Former Secretary of State On Defense

PARTY LEADERSHIP INVOLVED

Bitter Fight To Control Democracy Seems To Be Brewing On Mainland

(Associated Press by Federal Wireless.)
WASHINGTON, November 6.—President Wilson returned yesterday from New York, where he outlined the administration policy on national defense in a speech at the Manhattan Club. He was asked to reply to the attack on the administration plan by William J. Bryan, but declined to do so. It was said the President would make no answer under any condition.

Mr. Bryan's statement has attracted wide notice in government circles here and had induced more comment on the motives of the former secretary of state. It is thought Mr. Bryan's statement forecasts a bitter struggle for leadership in the Democratic party.

Congress May Inherit Fight
The fight will be carried to congress, it is confidently expected in Washington circles, and may play a large part in the next presidential campaign.

The President's policy, as outlined in his New York speech, according to Bryan, is entirely unjustified by the facts and places the United States in the light of a military action. In answer to the President's statement that he was supporting the plans for army and navy expansion, Mr. Bryan yesterday issued a formal statement, which said:

"The President's policy of defense is a departure from the traditions of the United States. It is a reversal of our national policy."

"Plans for military expansion he proposes constitute a menace to the peace and safety of the country. They challenge the spirit of Christianity which teaches us to influence others by high example instead of by fear."

Based On False Theory
Referring to Mr. Wilson's comment that "we are arming solely in preparation for the defense of liberty" should the time ever come when it may be threatened," and his further comment that "our work is only that we may have an army adequate for the times while working always for international peace," Mr. Bryan's formal statement says:

"Preparedness as a means of defense is a false theory. Preparedness leads nations to use force of arms upon the slightest provocation. A man carries a pistol ostensibly for purpose of defense but will more readily engage in a fight than one who goes unarmed."

In reply to the President's declaration that the country is asking how far prepared the United States is to guarantee against interference with national development, Mr. Bryan says:

"The country is not threatened. We are friends with the entire world and have nothing to fear from aggression," and added that the international situation does not justify the United States in arming for possible war.

Statement Creates Sensation

The statement of the former secretary of state has produced a distinct sensation in official and semi-official circles. It is regarded as the opening gun in the fight to line up members of congress for and against the elaborate army and navy expansion program which has been worked out by military experts and endorsed by the president, the secretary of war and the navy, and other administration leaders.

HONOR FOR JOAQUIN MILLER

(Associated Press by Federal Wireless.)
SACRAMENTO, November 5.—Governor Johnson today issued a proclamation recommending that November 10 be observed as Joaquin Miller day, in honor of the dead poet.

When Hot Back Aches

A Woman Finds All Her Energy and Ambition Slipping Away

Honolulu women know how the aches and pains that often come when the kidneys fail make life a burden. Backache, hip pains, headaches, dizzy spells, distressing urinary troubles, are frequent indications of weak kidneys and should be checked in time. Doan's Backache Kidney Pills are for the kidneys. They attack kidney diseases by striking at the cause.

Can Honolulu sufferers desire stronger proof than this woman's word? Mrs. R. E. Scott, 302 Main street, S. Baker, Oregon, says: "For twelve or fifteen years I was a constant sufferer from kidney complaint. My back ached terribly and my right side ached. I kept getting worse all the time and finally I was sick abed. I had to be lifted in and out of bed. The secretions from my kidneys were in terrible shape. The doctors didn't seem to understand my case, and at last I tried Doan's Backache Kidney Pills. They soon helped me, and two boxes completely cured me. The backache left, I gained weight and my kidneys were normal. I give Doan's Backache Kidney Pills the credit for saving my life. The cure has been permanent. There is nothing I can add to the endorsement I gave several years ago."

Doan's Backache Kidney Pills are sold by all druggists and storekeepers at 50 cents per box (six boxes \$2.50), or will be mailed on receipt of price by the Holister Drug Co., Honolulu, choice agents for the Hawaiian Islands. Remember the name—Doan's—and take no substitute.

BULGARS ROUTED BY FRENCH WHEN BRITISH FORCES COME TO RESCUE

Enemy Hurdled Back In Strumnitza Region, But Teutons Are Slowly Grinding Down Resistance of Serbs In The North

FATE OF NISH HANGING BY A SLENDER THREAD

Berlin Report Says Allies Have Suffered Reverses Seeking To Effect Junctions With King Peter's Retreating Armies

(Associated Press by Federal Wireless.)
LONDON, November 6.—British reinforcements from Salonika are reaching the French in the Strumnitza region, as well as the Serbs in the north, according to reports here this morning, and the result of the stiffened line in the south has been a series of reverses for the Bulgars.

The new despatches are unofficial, but they say the British are cooperating with the French and that the Bulgarians are being driven slowly from their positions.

It is problematical how far the British have penetrated in this region or beyond, but unless reinforcements in large numbers reach the north in the vicinity of Nish the Serbian capital will soon fall. It is reported the capital's fate is hanging by a hair.

In the north, to the west of Nish, the Serbs continue their retreat, though contesting every foot of ground viciously. The Teutons by sheer numbers are grinding down the opposition, however, and are expected to continue so unless the Serbs are reinforced heavily and immediately.

BULGARS ARE NEAR NISH

GENEVA, November 5.—Latest reports from the Serbian army show that the Bulgarian army is within six miles of Nish and steadily reducing the outer defenses of the capital city. Its fall is now regarded as certain.

FRENCH REPORTED ROUTED

BERLIN, November 5.—It is officially reported here that the Bulgarian army has succeeded in routing the French expedition which landed at Salonika and struck inland to succor the Serbs, many of the French being captured. Austrian troops are attacking along the western Montenegrin border to block the Serbs in their retreat from other areas where they have been beaten.

JAPAN DEMANDS YUAN KEEP PEACE

Sends Note To Chinese President Asking Hint To Give Guarantee Of Order

(Special Cable to Nippon Jiji.)

TOKIO, November 5.—The Japanese government has sent a note to the Peking government asking that the Chinese president guarantee to Japan that there will be peace in China. The note states that Yuan Shih-kai must bear the responsibility of any uprising in China that may follow his plans for reestablishing a monarchy—a plan of which Japan has expressed disapproval.

Count Okuma was called by the emperor yesterday to discuss the Chinese situation. After Count Okuma left the palace he immediately called the Japanese cabinet together and the Chinese question was discussed.

It was at this meeting that the cabinet decided to demand of Yuan Shih-kai a guarantee of peace in China.

STEAMER WITH CARGO AFIRE REACHES PORT

(Associated Press by Federal Wireless.)
HONOLULU, November 6.—The British steamer Rio Lages, which went out S. O. S. calls, reporting a fire in her hold, has reached her destination, Queenstown, according to cable news. The fire in her hold
